Music Mantra Institute (MMI) is founded on the core principle that music should be in the hearts of everybody and that anybody who wishes to practice music should be able to do so without any hindrance. We believe that music and singing does not always have to lead to a career or profession. Rather, the pursuer of music needs to feel free to learn the art form and elevate him/herself to the highest level that she/he probably can. MMI's mission therefore, is to provide everybody the platform, education, evaluation and promotion, that they need to attain their ambitions as a musician.

Mission

MMI aligns in the way the music industry works.

Our mission is to combine the high quality teaching and result driven promotion with new ideas developed by our faculty and working members.

Incorporating the extensive knowledge of our mentor Nirmalya Roy and his teaching staff. We intend to inculcate the culture of innovation through openness, observations and ability to showcase the talent to the outside world.
